Allowable Subject Matter

1. Claims 1, 4, 5, 7, 9, 12, 17, and 18 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The closest prior art, Tsurumoto (US 6,510,555 B1) teaches an apparatus (as shown in figure 2) comprising the features of "a common program guide information producing section", "a self-produced information transmitting section", and "a common program guide information receiving section"; Blackwell et al. (US 6,085,253 A) teaches a transmission system comprising a backup computer or apparatus for processing and transmitting the requested data when a primary apparatus is failed in transmission system. The prior art fails to teach or fairly suggest the limitations "a program guide information output section that receives said self-produced common program guide information from said common program guide information producing section and also receives other broadcaster's common program guide information from said common program guide information receiving section, and unites said self-produced common program guide information and said other broadcaster's common program guide information, and outputs the united common program guide information as all broadcaster's common program guide information to a TS multiplexing apparatus" as recited in claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
